

Final Exploitation event

Welcome

Alessandro LEVIZZARI

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 776851

Welcome

WELCOME to all participants to this final event of the EU research project CarE-Service. This Exploitation event is the latest in a series of Exploitation meetings, which were promoted and strongly supported by STELLANTIS during 42 months of R&D activities.

In the role of Exploitation leader, STELLANTIS is proud to present today various interesting results on which as OEM we believe there are real possibilities to make further investments. In fact STELLANTIS supports and will continue to invest in the topics of the Circular Economy as an opportunity for new business models that are ever closer to customer expectations.

Even if in a virtual form, we want to make sure that this meeting can be of interest to you and offers you the opportunity to know and understand the results of research activities on possible new business models linked to the end of life of electric and hybrid vehicles.

Thanks in advance for you participation !
